- %100 Aluminium Structure
- AISI 316 Stainless Steel Connection Elements
- Stainless Steel wheels
- Structure Warranty: 5 years
- Iroko Wood Deck Covering

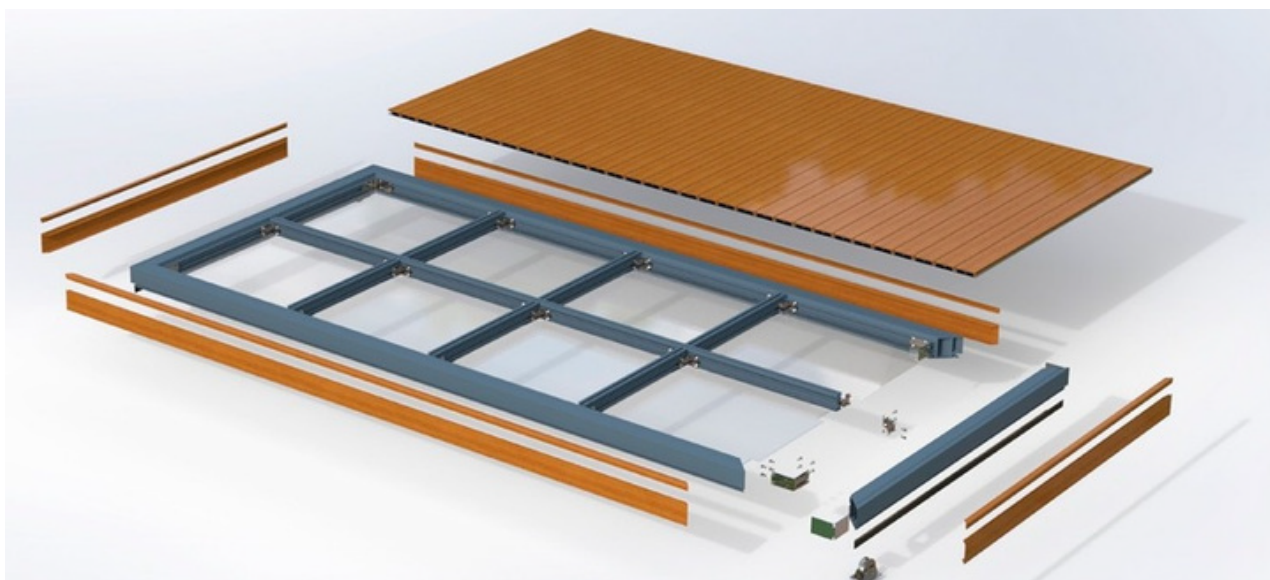

Stainless Steel Wheels

Small Connection

Large Connection

## VERA

**A NEW DIMENSION FOR YOUR POOL****SLIDING TERRACE POOL COVER SYSTEMS**

Transform Your Space with a Single Touch How would you like to transform a pool that limits your garden space into a stylish sun terrace or a spacious event area whenever you need? Our mobile platform system converts your pool into a 100% safe and functional floor when not in use.

**WHY CHOOSE OUR SYSTEM?**

Due to humidity and chemicals, the pool environment is one of the areas with the highest risk of corrosion. We place durability at the heart of our engineering to guarantee the lifespan and performance of our products.

- **100% Aluminum Substructure:** The main load-bearing frame of the system is manufactured entirely from high-strength aluminum. This ensures your structure will never rust or decay, maintaining its original form for years. Unlike steel constructions, it provides total protection against pool water and external elements.
- **Stainless Steel Wheel Technology:** Our wheel system, which ensures the smooth and silent movement of the platform, is produced from specialized stainless materials. Even with direct water contact, it will not seize or jam, offering comfortable use without the need for maintenance.
- **Maximum Safety:** When your pool is closed, you can place furniture on it, walk across it, or use it as a safe play area for your children.
- **Clean and Warm Water:** When the platform is closed, it prevents pool contamination, reduces evaporation, and helps maintain the water temperature.

## VERA – PRICE LIST INCLUDING IROKO HARDWOOD DECKING

		POOL WIDTH					
		2,50	3,00	3,50	4,00	4,50	5,00
